Bob Books: Sight Words, 1st Grade

Synopsis

From the Best-Selling learning to read series, Bob Books, comes *Sight Words: First Grade*. Sight words are common words that appear again and again in your children's reading material. Knowing these words "by sight" is essential for reading fluency. *Bob Books Sight Words - First Grade* gradually adds more complexity as your beginning reader acquires 30 new sight words. It is a great companion book to *Bob Books Sight Words - Kindergarten*. Consistent short vowels in one syllable words of three, four or five letters, mean children can sound out (decode) the story. They learn three new sight words per book. While words and stories in *Sight Words First Grade* are slightly longer and more complex than *Sight Words Kindergarten*, they are still suitable for a beginning reader. Inside the box you'll find:

- 10 easy-to-read, hilarious small books, 12 pages each.
- Slightly longer and more complex stories.
- All stories told in one syllable, three-, four- and five-letter words, plus sight words.
- Consistent short vowels mean easy decoding in the rest of the story.
- Three new sight words introduced in each book.
- Context clues and illustrations give sight word hints.
- 30 two-sided, sight words flash cards..

Book Information

Paperback: 122 pages

Age Range: 3 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

2 months into kindergarten, the teacher called a conference with my wife and I. Suggested that our son repeat Kindergarten due to his frustration and lack of attention in learning his ABC's. So we

were determined to teach him his ABC's, reading, and have him enter 1st grade with his peers. We purchased Set 1, 2, and sight words. Now fast forward 2 months after the Bob's books, my son is reading!!! And his teacher sent home a lengthy note about how ecstatic they were in his reading. They even called him a super reader! You must be patient because these books are "boring" to a NORMAL reader, however, to a kid that is just beginning to understand how to sound letters, and put them in to words â " they are an absolute MUST. He gets very excited with each book he finishes, and we let him put marbles in his reward jar. Full jar equals cool reward. Each set contains 12 books (I think), and they are short reads â " 7 or 8 pages. Very little distractions. WE ARE SOOOO HAPPY WITH THIS PURCHASE!

There are a lot of so-called "early reader" books out there that are completely inappropriate for actual early readers: They are loaded with too many words that are not easily decodable. The Step Into Reading books with Disney characters on the front are a perfect example. The Bob Books are really written for the early reader. This series introduces three new sight words per book, and the words are repeated throughout the story. The remaining words are mostly consonant-vowel-consonant, CCVC or CVCC words that follow basic decoding rules. There are a few words here and there that are a little trickier but are easily inferred from context and pictures. The stories are short, there is not too much print on the pages, and stories are clever and engaging. The flash cards are a nice addition. These Bob books, along with Meet the Sight Words, the Biscuit Phonics Box Set and Nora Gaydos's Now I'm Reading, Playful Pals Level 1 are the best books to give to the child who has learned a few sight words and can decode CVC words and is ready to apply those skills to books.

The Bob Books are a series of boxed sets designed to help develop skills at different levels and complexities. They are designed to grow with a child as their skills in reading improve. There are 10 books in this specific boxed set: Mat Hid Hop The Jet Who? As Big As Milk She Did It Frog Sat The Trip Sun Sets 30 Flash Cards of the 30 sight words: a, as, can, did, do, down, fly, get, go, goes, had, has, home, in, is, jump, look, not, off, on, over, ran, saw, she, some, they, to, was, went, who The tools combined in this box set are a real aide in helping a child grow and develop their reading skills. The focused repetitions between the flash cards, and the same words being a big focus in the books, is a well designed and planned tool.

The Bob Books are a series of boxed sets designed to help develop skills at different levels and

complexities. They are designed to grow with a child as their skills in reading improve. This is the second set we have given our oldest daughter and she loves them. There are 10 books in this specific boxed set: Plums Little Bug Pretty The Sled What Is that? Come In The Old Truck Play Ball Dress Up Before and After 30 Flash Cards of the 30 sight words: are, good, now, ate, he, little, pretty, said, she, will, with, you, my, that, what, come, into, under, make, new, like, play, bring, small, old, find, before, then, long, after. The tools combined in this box set are a real aide in helping a child grow and develop their reading skills. The focused repetitions between the flash cards and the same words being a big focus in the books is a well designed and planned tool. One of the things I like best is that in the front cover of each book is a list of the sight words focused on in that book, and a parenting tip for helping the child to acquire the new words. This is a great series and with each new one I appreciate them more.

I bought this series along with the other five: Series One: Beginning Readers through Series Five: Complex Words. The trouble is, I didn't open this to see where it "fit" in with respect to the series. So, we did Series 1 through 5 first, and then this one. The result was that this was way too easy for my child. Once you have finished Series Five you are effectively way beyond the level of this series. I would recommend inserting it after Series 1 or perhaps Series 2. If you go beyond those, you probably are past the point of needing this set. I have not purchased the Sight Words First Grade edition so I unfortunately cannot comment on where it fits in with the others. All in all, though, I felt like the books were very nice. I wish I had used them earlier. Having used all five sets plus this set for my child, I can heartily recommend the BOB series of books. I tried other small book series, The Reading Lesson, and just random books to teach my children, and this is by far the most effective and enjoyable method we have used thus far. I think you will be very pleased if you purchase these.
