A wonderful, powerful book. A good book for the serious minded prayer warrior. Be ready to see the exciting things God will do when you make a committment to read this prayer every morning between the hours of 3-6a.m. or whenever the Holy Spirit ignites you to pray.

This is an interesting religious book of less than 100 pages. It is a book that teaches you how to exercise dominion over people who belong to the kingdom of darkness. The book gives encouragement on how to wake up for early morning prayer, and command your monrning before the sunrise. It has enabled me to command blessings into my life each day through the early morning prayer.I recommend this book for every christain from all works of life; and most especially for those who have weakness in praying. It energizes warfare christains to subdue workers of iniquity.- Florence

If you want to keep the adversary at bay daily this is the best way in which to accomplish this.

Before the day began you can command/decree/declare Gods word to be sent into the spiritual realm and cause it to line up with His word. The enemy knows and must obey the word of God; "For it is Written."

This "booklet" contains invaluable information pertaining to warfare prayers, confessions and declarations. If you are serious about overcoming the enemy and taking new ground this book will open your eyes to issues from a non-western point of view. This little book is biblical and is now a vital resource in my arsenal of spiritual warfare resources.

Read this book, then, did what was recommended. I have peace throughout my day like I never had before. This book reveals truths ignored by many. Commanding my morning has made a difference in my life.

The book is easily understood by all. I recommended this book to my friends and they are looking to purchase it after reading it.

AWESOME small but powerful book!! If you believe in prayer and want to know the deeper aspects of it which will manifest wonderful results, THIS IS THE BOOK FOR YOU!! I had a very powerful experience the first time I was reading this book which I won't go into here but trust me, it was ASTOUNDING!BUY THE BOOK!!

I would never had understood these principles had I not read this book. These things are not taught openly in America. I am not a morning person at all but I made the decision to start getting up before dawn and do these prayers, confessions and declarations. I first thought I would go back to bed after I was done (which I have done a few times) but usually I am so energised with life from the Holy Spirit that I don't. I find myself singing most of the morning. I have noticed big differences in my life all day long. But don't forget to command the night also. I give this book 5 stars and recommend other books of Dr. D.K. Olukoya's books some are extremely short but very effective and worth their cost. Very eye opening book that I highly recommend, especially in this day and age. This is also a great tool that could be used to bring America back it it's original place of greatness as one nation under God.
