I guess I didn't look carefully, and when I got this book in the mail I thought it was only the "story behind the story." I was really only interested in the story itself. What a relief when I discovered the
This anniversary book was written and illustrated to hold the interest of everyone, even small children. It proves that when a person has a talent, they can make themselves happy and enrich the lives of many others by sharing it. Wonderful for children and adults.
Well we learned our lesson. Not for kids but for fanboys of this book. Thought it would be a bigger better version of this great children's book but only was fluff with the book in the middle. We were not jazzed to hear about the commercial success of this book.

This edition is a collector's edition and not one to be bought for someone who just wants to read the story. The story, however, is a wonderful tale for modern girls -- my college roommate sent it to me for a birthday gift about 15 years ago, and I have enjoyed reading it many times since then. This is a story about a Princess who is "going to marry" a Prince that she kind of likes; then one day, a dragon burns the Palace down and steals the Prince (maybe he was nearsighted?). The Princess who stands in the ruins in her own fair skin, can only find a large paper bag for clothing, but she dons it and hurries off to save the Prince; and she does so by very clever flattery and sharp, quick thinking. Once the Dragon has collapsed in exhaustion, she picks the lock and there's the Prince. But, in typical Male Chauvanist fashion, Prince Ronald sneers at her because she is dirty and bedraggled and wearing a paper bag; he tells her to go clean up and put on a decent dress and come back. Instead, she gives him a polite but sharp reply about how pretty his clothes are and how nice he looks, but finishes, "But you are a jerk." And, as she skips back down the road, we are told "They Didn't Get Married." My college roommate sent me this book because that's pretty much the way my last and final engagement ended! I am a happy spinster and I hope this Princess is too.

Love this book! I read it to my little girl (she is now 24 and very much like the Paper Bag Princess) Definitely a favorite of ours. In fact I included a copy with every baby gift we give to a baby girl.
