## Customer Reviews

This is a fantastic books for kids. They can draw and write about their feelings in regards to the marriage, the divorce, and so much more. It has really helped my daughter so much. She has even told us how much it helps her and how much she enjoys it.

I bought this book that was reccommned by another person for my Grandson. My Daughter and her Husband have separated and I thought this book might help answer some of his questions. It is a nice book but too old for a 5 year old. Better for pre-teens and above. It is a question and answer coloring book.

A great starter for talking about divorce. Lends itself for the child to create their own book. Great for elementary age kids.

Very useful in helping children process their confusing feelings about parental divorce. A great tool for parents, teachers, grandparents, and other supportive people wanting to lessen the pain these children feel.
