Your Inner Conversations Are Creating Your World (Paperback)
If your inner speech is not a match to your fulfilled desire it is incapable of birth. Your inner speech is creating the world around you. How you view the world, seeing your desires as already accomplished facts, not as something to obtain but as present realities is one of man's greatest discoveries. To be free from the limitations of the senses and the bondage of reason by awakening the power of your own inner talking is to be a truly enlightened individual. To witness the world around you unfold according to your own words is a revelation. To discover that our own inner speech from the premises of the wish fulfilled is a secret of the ages. Our outer world mirrors our inner world, our inner speech. Do not judge according to appearances but see the truth that you are creative by power of your inner word. The ancient mystics of the past knew this mystery and now those who have this conscious understanding can have all things added to them.

Compiled and Edited by David Allen. Well this David Allen has done it again, great job. Wish he would allow us to look inside all of his books on Neville Goddard. I am still reading this book, but anything by Neville is amazing. This is a collection of 16 lectures from various years and the 1948 lessons which consist of 5 lessons and 3 chapters from 3 of his books, "The Coin of Heaven, To Him Who Hath, and Consciousness." To have this compiled like is what I have been hovering around in my own mind and thinking and now here it is in a nutshell. Very easy to read, which some of Neville's works can be intense to grasp or if your lucky to get it very easily.
Excellent book on the art and practice of manifestation. Anyone who is serious about manifesting their dreams must read each and every book by Neville Goddard. My life changed when I took his advice and started using it every day.

Great read! Powerful words for those interested in living their dreams. The very fact that you have found your way to this book and are reading this review.....this book is for you. Highly recommend.

I love his books. For ME life finally makes sense.
