Peculiar Faith: Queer Theology For Christian Witness
Synopsis

Designed for both church and academic audiences. Ecumenical appeal. Residing at the intersection of constructive theology and critical social theory, this book provides a resource for both students and clergy to reinterpret Christian theology and re-imagine Christian faith in the twenty-first century. The author seeks to encourage and equip Christian faith communities to move beyond the decades-long stalemate over human sexuality and gender identity because queer gifts emerge in Christian communities when lesbian, gay, bisexual, and transgender (LGBT) people no longer feel compelled to justify their presence in those communities. Useful in both seminary classrooms and in congregational settings, the book is a contribution to the still-emerging field of queer theology, translating the rigors of scholarly research into transforming proposals for faith communities.

Jay Johnson exploits the many connotations of the word, 'queer', in an almost trickster fashion. Like the prophets of ancient Israel, Johnson renders judgment and hope. He offers the reader sound Christian theology, inspiring a "faith active in love" (Gal. 5:6). I heartily recommend this book.

This text is great for those wanting to have a practical application of the Gospel in our contemporary culture.

A great read!
