Looking Beyond: A Teen's Guide To The Spiritual World

Synopsis

Who Do You Think You Are? Have you ever wondered who you really are and what you are doing here? Believe it or not, the simple truth is that everything you want to know is already inside you. Renowned psychic and bestselling author James Van Praagh has learned a lot through his amazing ability to communicate with the spiritual realms, and in *Looking Beyond* he shares with teens what the spirits have taught him, including The real deal about soulmates (hint: you have more than one!) Why you have the parents you do What the heck spirit guides are and how to use them How dreams can increase your creativity Ways to develop your sixth sense The lessons you were born to learn *Looking Beyond* gives you the tools you need to uncover the power, strength, and talent to fulfill your unique destiny. If you would like to begin the journey to discover the real you the person you are meant to be just turn to page one and let Van Praagh show you the way.

Customer Reviews

I bought this for my child, but realized it was excellent, even for an adult. Some books can use terminology that is not always understood to a "newbie". This breaks it down in an elementary fashion, but was straight forward and not confusing at all...for the beginner at any age.

I bought this book for my 15-year-old son who is entering the 10th grade. I wanted something that would explain spiritual concepts that aren't taught elsewhere. This book does just that. The layout and information will keep a teen interested. I would recommend this book to any adult or teen wanting to know how our spirituality and everyday lives impact and effect the other. James Praugh

knows what he is talking about and he knows how to explain the information. More reading and studying will eventually be needed, but as a starting point, this book is an excellent introduction for anyone. I highly recommend.

I am a Special education High School teacher, a hypnotherapist, Past Life Regressionist and like James Van Praagh, a psychic/medium. I have been asked by many parents and clients about their children and the subject of psychic abilities. I have found that many children are frightened by their innate abilities and so shut down or "vibe over" denying their abilities. Often, I have heard them describe what most of us adults call "a gift" as a curse. James Van Praagh has written a very child friendly book, explaining a deep, complex and sometimes frightening subject in a very interesting way. If you have a child who shows interest in the field of Metaphysics, this is a good book to give them and you can gain good insight from it too.

I bought this book for my mature 9 year old son who is a crystal child. He has been telling us about his guardian angels since he started talking. I previewed the book before I gave it to him because he's a little young for a teen book. There was only one page in the whole book that I thought was a little beyond him. He absolutely loves the book and it is helping him so much with his abilities. He has started meditating on his own!

Bought this for my teenage daughter whose father had recently passed away. She still carries it with her to read at her leisure. A great book!

An excellent, thoughtful book. If I were an adult just looking for answers, and a simple " Why?, What?.. Why Me???" start to the Who that we are... I would not hesitate to pick up this book as a primer. My 16 yr old is liking it.

I bought this book by mistake, thinking that this is for adults but turned out it is a teen's guide. I was going to give it away to a school library, but then decided to read through it. Alas, it is very simplified and summarized book on spirituality without any extra stuff! I've read many spiritual books, including the author's books, but I enjoyed this easy-read book and I'm an adult. I think this is great for any parents for teenager, then to recommend them to read it. This book teaches a teen value, morale, and trust, all generally good subject. Of course if you are open to spirituality, that is.

An introduction to understanding the 'greater spiritual world' of life. Some type formats were difficult to read but those sections are not necessary to glean the information from the book.
