When push comes to shove, two Kentucky girls find strength in each other. Ivy June Mosely and Catherine Combs, two girls from different parts of Kentucky, are participating in the first seventh-grade student exchange program between their schools. The girls will stay at each other’s homes, attend school together, and record their experience in their journals. Catherine and her family have a beautiful home with plenty of space. Since Ivy June’s house is crowded, she lives with her grandparents. Her Pappaw works in the coal mines supporting four generations of kinfolk. Ivy June can’t wait until he leaves that mine forever and retires. As the girls get closer, they discover they’re more alike than different, especially when they face the terror of not knowing what’s happening to those they love most.

FAITH, HOPE, AND IVY JUNE by Phyllis Reynolds Naylor is a marvelous book for middle-graders. I had high expectations for this book because Ms. Naylor has written so many fantastic books for young people including the Newberry Award winning novel SHILOH; and I am so happy to say that I wasn’t disappointed. FAITH, HOPE, AND IVY JUNE is just one of those books that will stay with you for a long time after you’ve finished reading it. The story, the characters, and the lessons in this
story are all extremely memorable. FAITH, HOPE, AND IVY JUNE is already receiving awards -- it is the winner of the Kid's Indie Next List "Inspired Recommendations for Kids from Indie Booksellers." As far as I'm concerned, there should be many more awards coming in the next few months. This book not only told a very good story, but it also had terrific characters who learned so many important life lessons. I think one of the reasons that I enjoyed this story so much was because I could somewhat relate to it. As a child, I never participated in an exchange program, but I did attend a lot of new schools because my family moved so often. I could understand both of the girls' fears and insecurities about entering new and very different environments. Another way that I could relate to this book was because it pertained to coal mines. My family comes from a line of coal miners who live in Western Pennsylvania. I enjoyed reading about life in the coal mines and how incredibly risky and difficult a coal miner's job is. If I put on my "mother" hat (instead of just my "reader" hat), I have to say that the lessons in this book were wonderful.

FAITH, HOPE, AND IVY JUNE is about two girls from totally different places and backgrounds who participate in a student exchange program. Although both girls are from Kentucky, one is from the bustling city of Lexington and the other is from the mountains. Ivy June is excited about her upcoming trip to spend two weeks with Catherine in Lexington, Kentucky. The exchange program was organized by their schools, and Ivy June was encouraged to apply by her family, especially her grandparents. Her name was chosen from among six names thrown into a coffee can. Although she is excited about the adventure, she worries about fitting in in the big city. She knows Catherine will no doubt live in a fancy house with indoor plumbing which will be a welcome change, but Ivy June doesn't want to end up coming back home wishing for a different life. She has been living with her grandparents for some time now. It was just getting too crowded over at her old house. She's just a short walk from her ma and pa, but being the only child living with her grandparents and her 100-year-old great-grandmother has given her more of a sense of belonging and love then she ever had at home. The idea of the exchange program is for Ivy June to stay with Catherine for two weeks. She is to attend Catherine's private school for one week, and then enjoy a week of sight-seeing during Catherine's spring break. After a week back in the mountains, Catherine is scheduled to visit Ivy June for two weeks. Both girls might be in seventh grade, but that's about where the similarities in lifestyle end. How will they get along? Can they each adjust to the vastly different economic conditions and completely different family structures they will encounter?
