Fractions, Decimals, And Percents, Grades 3 - 5 (Skill Builders)

Synopsis

Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises based on national standards for third through fifth grade to help ensure that children master fractions, decimals, and percentages before progressing. Skill Builders combines entertaining and interactive activities with eye-catching graphics to make learning and reviewing fun and effective. The compact 6" x 9" size makes this book perfect for school, at home, or on the go. It features 80 perforated, reproducible pages and an answer key.

Language: English

ISBN-10: 1936023172

ISBN-13: 978-1936023172

Product Dimensions: 6 x 0.2 x 8.6 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (10 customer reviews)

Best Sellers Rank: #89,321 in Books (See Top 100 in Books) #28 in [Books > Children's Books > Education & Reference > Math > Fractions](#)

Age Range: 8 - 10 years

Grade Level: 3 - 5

Customer Reviews

Be aware that this workbook, at 6x9 inches, is physically about one half the size of a usual workbook. So it's no bargain. Furthermore, there is very little space for students to do their figuring on the many problems that require that. Definitely not indicated for the younger range of students.

Lots of instructions and problems with gradual increase in difficulty for each section. My son can do these on his own since the sample problems are detailed and step by step. Harder sections have enough problems where he can practice. He can also use as a reference once he's completed the workbook. Will continue to order this series.

great little book. the size is perfect - gets the job done in small bites - well laid out and good explanations - this was the perfect review and reminder for the TABE test for my niece - crazy but true you need to review 5th grade math to get into tech college - she ended up acing it!

Perfect to brush up on lost math skills. My neice needed to brush up to pass a test for a job...she did the book front to back...passed the test with flying colors!

Really like the exercises in this book. Great resource for additional work on the topic areas.
