Age Range: 10 and up

Grade Level: 5 and up

Customer Reviews

I believe writing is a very important skill for every child, so I have always been trying to improve my son's writing skills. This workbook with excellent prompts came as a great help. It has inviting prompts for fifth graders, which can be used for journals, assignments, poems, conversations, songs and more. My son really likes the prompts. It is a workbook of imaginative situations and questions that got my son using his brain to come up with wildly creative ideas when he began to put pen to paper. It has given my son a chance to grow his creativity and imagination, and it made writing much more exciting for him. I'm glad I bought it. For more practice, we simply used the online writing exercises on the Beestar website. The worksheets are well-designed and have interesting real-life questions for your child to practice. If you are like me, you will be surprised that kids nowadays are pretty quick and smart in online learning.

I like how it breaks down the writing steps into simple format. Then it slowly builds the writing up to age appropriate skills. I think this will give my child a solid foundation for her writing skills.

I bought this for my daughter as prep during the summer for her between 4th and 5th grade summer. It was very good and has helped her immensely improve her writing skills. Highly recommended.

When I ordered this book I thought it was more like just writing essays, but in my opinion it's more like a mix language/writing book. Great little pictures for that age group. And it starts slowly until the writing takes more body. I am very happy I bought this book for my 5th grader homeschooler, also it helps on his handwriting because it has dotted places where he has to trace. It has 71 pages of exercises.

I started my son on this workbook and it is pretty good for helping him with the details that kept plaguing his writing. It was such a bummer to see red all over his paper over capitals, commas, and such. It handles grammar well. He is in fourth grade and able to figure out the directions and complete the work pretty much on his own. I haven't gotten to the end where they work on paragraphs, but so far, so good.

Ok, so I must say that I ordered one too many of this book, but after glancing through its content, I decided to keep both copies for each of my kids (4th and 5th grades). I can't wait to see their reactions to this curriculum, but if they are like me (when I was their ages), they will love it. I will give a thorough review once I have hands-on experience.

This is a very good skill for my kid during the summer vacation. It's going to benefit anyone before the next level.

I am very impressed with the quality and nice organization of the Kumon book series. We had used the writing for grade 3 and 4. The books make the Kumon system more interesting to kids and the prices are more affordable than the traditional Kumon classes. The books had worked very well with the weekly Beestar online program—a fun and effective resource. But somehow the 5th grade book is not as interesting to my kids. Maybe they found it less challenging after working intensively with the other books and Beestar. I will continue to try the writing of higher grades as Kumon builds solid foundation. As I really hope my kids will use them for a long period pairing with Beestar, and I hope Kumon will publish books for students of higher grades.
