# Kindergarten Success With Sight Words (Sylvan Workbooks) (Sylvan Language Arts Workbooks)

## Synopsis

A solid foundation of reading skills is essential for kindergartners to become successful readers. Learning basic sight words is a critical step in building that foundation. The activities in this workbook are designed to help your child catch up, keep up, and get ahead—and best of all, to have lots of fun doing it! Here are some of the great features you'll find inside:

- **Spot the Dots** Connecting the dots by drawing lines from sight word to sight word in alphabetical order leads children to a surprise picture as a reward!
- **Start Your Crayons!** Which dinosaurs are wearing the right words? Children practice recognizing new sight words by coloring only the dinosaurs wearing the correct "jiffy words" or adjectives.
- **Poetry Guy** Children help Poetry Guy finish his poems by reading them and filling in the sight words that rhyme.
- **Meet in the Middle** Helping two kids find the middle of a maze based on the word on their shirts is a fun way to reinforce recognition of high-frequency verbs, pronouns, and prepositions.
- **Hide and Speak** Children practice words for colors, food, and transportation by saying each sight word out loud and then drawing a line to the matching picture.

Give your child's confidence in reading a boost with **Kindergarten Success with Sight Words**.

## Customer Reviews

It's a good workbook with different activities, such as tracing, matching, coloring, mazes, word hunt, etc. The contents do not show which words are in the workbook, so it was hard to decide whether to purchase it or not. In the end I did because of other good reviews. However, I thought I'd write down the words, so that other parents won't have such a dilemma. Here they are:

1. Jiffy words: a, the, I, am, is
2. Busy words: see, find, run, come, can
3. What's it like: big, little, long, old, pretty
4. Colorful words: red, blue, yellow, green, brown, black
5. Animal friends: dog, cat, bird, rabbit, fish
6. Jiffy words: at, not, to, an, will, say
7. Who's who: he, she, it, you, me, we
8. Count on it: one, two, three, four, five, six
9. Hooray for play: boy, girl, toy, doll, ball
10. More busy words: go, get, ride, work, play
11. Even more busy words: give, want, like, make, look
12. What's for lunch? egg, cake, milk, soup, banana, apple
13. Where is it: up, down, on, under, out
14. This & that: and, but, for, so, no, yes
15. Jiffy words: have, be, has, my, do, was
16. Head to toe: feet, leg, eyes, hand, head
17. On the go: car, bus, boat, truck, train, plane
18. Jiffy words: saw, this, that, said, who, what

I decided on this workbook after browsing through several series at a bookstore. I like the content and format the best and my kindergartener daughter loves working on this! Highly recommended for the second half of school year when your child has built up some experience from school.

I got this for my daughter for her birthday. She has learning disabilities so she has some trouble reading, but she was able to do all the exercises in the book, which was a real boost for her self-esteem. And it kept her busy and off the computer for hours. Great stuff. Highly recommended.

I gave this book to my niece for her baby ... she loves it and has already started exposing the baby to words/pictures. Reading is the foundation for all education so a fun, no stress start can't come too early!

So I'm that parent, making my kids do homework even when their teachers do not assign it, over breaks, and especially during summer. We've gone through a lot of workbooks, this is one of the best. I like to challenge them and also I've found with many books that they're really... well... remedial. You buy a K book for your K child and it's all stuff he or she already knows. Sylvan here is a little bit better in this regard. I think this would have been good for my son when he started K. My daughter is the one using it right now, and she is still in Pre-K, she is very advanced though, started preschool when she was still 2. Anyways I like to keep my kids working on the grade above for homework. My son did 1st grade books all through K, so in that respect this is good. Sometimes I

question the educational value of some of the tasks in some book, the ones in this book all seem good, many are similar to work the kids do in school, and my daughter has really progressed with this specific book. I just wish it was longer, she is going to finish it. I'm on today looking for a replacement. Not saying this is short, its above average in length for a workbook, I just want one just as good covering the same words for her to go through again, not sure I want to start 1st grade sight words when she is still in prek.

this is a very good book to use if you are looking for something to help your child learn to read at home or in addition to public school work. It does not have tear out pages though which I personally prefer

It's a very good beginner for pre-k and kindergarten kids. Forms basic words and exercises are good. Sylvan books are good.

This is a great asset to help teach my daughter to read and to reinforce things that she has already learned. Very simple which is nice so it is fun to learn as well. Fast shipping and will use more workbooks from Sylvan as my childrens ages progress.
